

# **K2305 EPIC TRANSFLEX BASE**

Wilflex™ Epic Transflex inks are used to create a soft-feel, hot-split transfers that give the appearance of a direct print. Using the Wilflex IMS software and Epic PCs, users can easily create translucent or opaque colors by adjusting the pigment loading. Properly formulated colors will produce soft, opaque prints on dark fabrics, without underbasing. Epic Transflex inks may also be used for conventional cold-peel transfers. Epic Transflex inks are designed for fine line detail and solid spot color printing applications

## **HIGHLIGHTS**

- W Hot-split transfer ink with a soft feel
- W Excellent printability.
- Create prints for white or pastel garments with W Hot-split, hot-peel or cold-peel lower pigment loading
- Create prints for dark garments with higher pigment loading.

## PRINTING TIPS

- The use of Epic TFX Printable Adhesive will improve the adhesion of Epic Transflex inks to a far wider range of substrates when cold-peeled.
- The transfer paper should be peeled immediately after transferring for optimum results. When coldpeeling, allow 15 second cool down before removing the paper
- Adjustments to the drying mechanism may be required as the variables of different drying (heat) types, length of dryer conveyor and drying units, will affect the overall transfer finish.
- The majority of standard transfer papers can be used with confidence. If a softer-feel transfer is required, an uncoated transfer paper is recommended. In most cases, a hotsplit/hot-peel transfer paper will be required.

#### PRODUCT INFORMATION BULLETIN

## RECOMMENDED PARAMETERS

## **Fabric Types**

100% cotton, cotton blends, rayon, linen, and Lycra. NOT recommended for nvlon or satin fabrics.

#### Mesh

Count: 86-125 t/in (34-49 t/cm) Tension: 25-35 n/cm2

#### Squeegee

Durometer: 60-80 Profile: Sharp, square

Stroke: Hard flood, Medium speed

Angle:

#### Stencil

2 over 2

Off Contact: 1/16" (.2 cm) **Emulsion Over Mesh:** 

#### Flash & Cure

Flash: 160°F (70°C) Cure: 300°F (160°C)

#### **Pigment Loading**

PC: 20% max

# Wilflex™ Additives

#### **Storage**

65-90°F (18-32°C) Avoid direct sunlight Use within one year of receipt

### Clean Up

Ink degradant or press wash

#### **Health & Safety**

Find SDS information here: www.avient.com/resources/safety-data-sheets or contact your local CSR

# **COMPLIANCE**

Non-phthalate
